NIKKI PUPPET

NIKKI PUPPET - The band with catchy melodies, their own style of music and high recognition value. Their songs are tough, snotty and catchy. NIKKI PUPPET's style is between hard and heavy rock, alternative and metal, characterized by strong hooklines, brilliant solos and powerful grooves. And now they also present their songs acoustically on their new acoustic album „Men against machine“.

Meanwhile the Hanoverians have released six CDs and one re-release. The will and the motivation to write good songs, to publish them and to perform them live is still unbroken. Because that is their heart and soul, and that's what drives them mercilessly.

In 2005 the first output was voted 'Demo of the Month' by Metal Hammer, followed by the debut album 'Puppet on a string'.

Afterwards Nikki Puppet played a successful four-week European tour with the Michael Schenker Group, further concerts with i.a. Rose Tattoo, festival shows e.g. in Wacken and at the Rockharz Open Air followed.

Nicky Gronewold is on the microphone and Christos Mamalitsidis plays the guitar. The rhythm section with Kai Paulmann on drums and Marc Scholz on bass provides the catchy groove. The four musicians - who couldn't be more different - create powerful, unique songs through their symbiosis and create their well-known 'Nikki Puppet' style from them.

NIKKI PUPPET - MEN AGAINST MACHINE (12.05.2023)

NIKKI PUPPET have fulfilled a heart's desire. Their current album „**MEN AGAINST MACHINE**“ contains 12 brand new, fresh and crisp acoustic songs that impress with power and a pinch of rock'n'roll.

With Nicky Gronewold on the microphone, Christos Mamalitsidis on the acoustic guitar, Marc Scholz on the bass and Kai Paulmann on the drums and various percussion instruments, they put their heart and soul into the songs.

„**MEN AGAINST MACHINE**“ tells some personal stories of the four musicians and reflects how they experience our fast-moving times with many current crises, but at the same time want to encourage solidarity.

The album was mixed and mastered by **Kai Schwerdtfeger** at Echolane Recording Studio, Bergen, Germany. The album was recorded by Kai Schwerdtfeger (guitars and vocals) and **NIKKI PUPPET** (drums, bass, add. guitars).
